

WORKPLACE SAFETY

In today's fast-paced environments, workplace safety isn't optional — it's essential. The Watch Guardian Platform is here to keep your team connected, protected, and prepared.

Discover comprehensive safety through integrated smart devices, centralized management, and secure system connectivity, all in one seamless platform.

Ready
to transform
workplace safety?

ABOUT US

At Connectified, we are dedicated to redefining workplace safety through innovative technology. Our mission is to create secure, connected environments for teams in high-risk settings. With the Watch Guardian Platform, we deliver integrated safety solutions that combine smart wearable devices, centralized monitoring, and seamless security system connectivity to empower organizations with real-time response capabilities. Trusted by industry leaders, we're committed to protecting teams and enhancing operational resilience every step of the way.

Smart Security
Simplified

WATCH GUARDIAN PLATFORM

COMPREHENSIVE SAFETY SOLUTION

The Watch Guardian Platform combines the power of a smartwatch app, a web portal, and a wireless integration board to provide a unified, real-time safety network for high-risk environments.

- Discreet alarm triggers with instant team-wide alerts.
- Scheduled welfare checks and remote device management.
- Live tracking and real-time response coordination.

360° Security

The Watch App

Empower workers with on-the-go alert capabilities and welfare checks. Every alarm is sent directly to the web portal and the entire team, ensuring swift awareness and response.

Web Portal

Command center for monitoring, logging alarms, and managing device fleets remotely.

Wireless Integration Board

Connect local security devices seamlessly, enabling automated actions such as access control lockdowns and warning light activation.

Customization

XML integration with third-party monitoring centers.
Custom API support for tailored security needs.

INDUSTRY USE CASE

- ✓ Banking and Finance: Protect employees in high-security environments with discreet alarm triggers and real-time monitoring.
- ✓ Warehousing and Logistics: Monitor lone workers and coordinate rapid responses with live tracking and team-wide notifications.
- ✓ Retail and Hospitality: Enhance staff safety with discreet communication and integration with local security systems.

Benefits at a Glance

- ✓ Optimize device functionality for dedicated safety protocols.
- ✓ Enhance situational awareness and streamline emergency responses.
- ✓ Ensure team-wide connectivity and peace of mind.
